Not just another H&S brief – by Jason Anker

7pm, Wednesday 11th July 2018 at the Princess Royal Centre for Performing Arts Guernsey

What happens when someone suffers a life-changing injury at work?
Come and listen to this compelling, thought provoking speaker and be inspired!

A real life story of the devastating impact of a workplace incident. Jason was just like many 24 year olds, married, 2 children and a love of football. He went to work one day without a care in the world, but that day would prove to be so very different. One moment in time and one action that was to change life forever.

Jason will talk openly about his experiences

- The physical and physiological effects of a major workplace incident
- The cost of an accident, financial and emotional
- His abuse of alcohol & drugs
- His struggle for compensation
- The effect on his personal life, family & friends
- His commitment to make a difference

Event is kindly supported by CIGPE, BIFM and GDA

Free admission - As a result of the importance and significance of this presentation to everyone. The session will provide compelling reinforcement why health and safety is so important and why GOSHA exists. GOSHA would like to welcome as many people as possible to this presentation by Jason Anker.
